Re: WCUZ (FM), Bear Lake, MI
Roy E. Henderson
Facility Identification Number: 57416
Special Temporary Authority ("STA")
BESTA-20160120AAC

Dear Mr. Henderson:

This is in reference to the request filed January 20, 2016, on behalf of Roy E. Henderson ("Henderson"). Henderson requests an extension of the July 8, 2015 special temporary authority ("STA") to operate station WCUZ with temporary facilities at a different transmitter site, because the station was required to vacate its licensed transmitter site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

The STA extension IS GRANTED. We expect that WCUZ shall continue the temporary operation authorized herein, through the term of this STA period or until the licensee implements permanent operations at a new site. Extension requests for this STA may be granted by the staff if circumstances warrant.

WCUZ may continue to operate from the temporary transmitter site with the following facilities:

Geographic coordinates:	44° 36' 38" N, 86° 09' 38" W (NAD 27)
Channel	261A (100.1 MHz)
Effective radiated power:	0.39 kilowatts (H&V)
Antenna height:	
above ground:	80 meters
above mean sea level:	342 meters
above average terrain:	129 meters
Antenna Structure Registration No:	1023398

Henderson must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on August 3, 2016.

Sincerely,

Dale Bickel
Senior Engineer
